A unique product – a writing board equipped with color changing and flashing functions which create an effective eyeball-catching attraction that nobody will miss. It is specially intended for short-term announcements. Produced with an ultra rigid acrylic surface, it is easy to write-on and wipe-off and can be used over a long period. A wide range of application includes for example: special function in hotel and convention center, boarding direction on a cruise-liner etc. It is the most ideal tool to help increase sales of restaurants, bars and other retail shops with their 'special offer' advertised.

Products Accessories (optional)

Triangular Easel

Fluorescent Marker Pen

Mobile Rechargeable Battery

Products Advantages

- Unlike chalkboards or dry erase boards, messages and drawings are self-illuminated on the LED writing board. There is no need for any additional external source of light.
- Displays attractively and marvelously either during the day or night.
- Unlike most billboards / neon signs which can only be used for one message, the Flashing LED board is reusable. Utilize your creativity to write or draw any message or picture to achieve your advertising goals. Simply clean it off with a soft clean cloth or tissue paper.
- Ultra thin and light weight makes it easy to carry, easy to hang on a wall or window or position it on a triangular easel - anyway you want it.
- Over 20,000 luminous hours of continuous use.
- Energy efficient and environmental friendly make it a perfect and economic tool for advertising.
- Display it in a storefront window display, lobbies or host stands.
- Great for use in places such as restaurants, bars, hotels, stores, stations, supermarkets, parking lots, companies, schools, churches, etc.
- A head turning economical marketing tool that will help your business stand out from the rest!

Used in Shops, Stores, Supermarkets, Restaurants, Bars, Clubs, Hotels and Office etc.
